

Hoist Chair 2

This chair has been designed specifically for use with a mobile hoist, having nursing and carer environments in mind.

With versatility in mind this chair can be pushed through any standard doorway.

This chair has a battery built into the chair and can be charged overnight after around 10 days of use, so no trailing cables to worry about.

This chair is a recline only chair with 2 motors for independent movement of the head and foot section, it has zero gravity feature and can be operated into the Trendelenberg position.

The footrest folds out of the way underneath the chair.

The chair has 5" diameter castors (braked at rear), an ergonomically designed push handle and Vasco Elastic foam to the seat.

The standard material is Vinyl semi waterproof.

The optional Panvelle material is fully waterproof anti-fungal, anti-bacterial, mrsa resistant, anti-stain.
