

Helena Chair Bed and Leg lifter

This chair bed is brand new to the market, and fills the gap for people needing help to lift their legs up onto the bed without the need for a carer. It can be a full size single bed (3ft with the arms down) down to a small single of 2ft 6.

It can be used either upstairs or downstairs for people who can not get upstairs. It has a standard weight capacity of 18 stone but can be upgraded to 25 or 35 stone.
